

● RUN IT · CLOUD MIGRATION & MANAGEMENT

Move to the cloud without the downtime.

We plan and run your move to Microsoft 365, Azure or Google Workspace with a staged plan and a rollback strategy, then stay on to manage, secure and optimize what we build.

WHY IT MATTERS

Aging servers fail at the worst possible time.

A server closet is a single point of failure, a hardware refresh bill and an energy cost. Done right, cloud migration means lower costs, better reliability and a team that can work securely from anywhere.

WHAT'S INCLUDED

Six cloud services. One partner.

Cloud readiness assessment

An audit of apps, data, dependencies and compliance, with a timeline, cost estimate and risk profile.

M365, Azure & Workspace

Email, files, collaboration and apps moved with full user training, so your team is productive on day one.

Data migration & backup

Secure transfer with integrity checks at every step, plus automated cloud backup.

Cloud security & compliance

MFA, conditional access, encryption and audit logging configured for HIPAA, SOC 2 and cyber insurance.

Ongoing cloud management

Licenses, patches, user provisioning, monitoring and cost optimization, so you never pay for what you don't use.

Disaster recovery

A tested recovery plan with automated backups, documented procedures and defined recovery times.

PRICING Every migration starts with a readiness assessment and a written plan with timeline, cost estimate and rollback strategy.

WHY SOLVED IT

One accountable local team.

- **A plan, not a gamble.** Every move is staged with a rollback strategy, so there's no surprise downtime.
- **We stay after day one.** The team that migrates you manages your cloud environment going forward.

Compliance from day one

HIPAA and SOC 2-aligned cloud setups for healthcare, legal and finance.

GETTING STARTED

Simple, clear, no pressure.

1

Assessment

Your apps, data and requirements.

2

Staged move

In phases, with a rollback plan.

3

Management

Monitored, secured, optimized.

PAIRS WELL WITH

Managed IT · Cybersecurity · IT Strategy

Migration scope, timeline and cost are confirmed in writing after a cloud readiness assessment. Microsoft 365, Azure and Google Workspace licensing is billed separately. Compliance configuration supports your audit readiness; certification decisions rest with your auditor.

Get a migration plan **before you move a thing.**

Book a free 20-minute call. We'll review your setup and outline the right path to the cloud.
