

• RUN IT · CYBERSECURITY & COMPLIANCE

Cybersecurity and compliance, handled as one program.

24/7 threat monitoring, endpoint and email security, staff training and compliance support for HIPAA, SOC 2, CMMC and cyber insurance, delivered by a CISSP-certified team as one program, not a pile of tools.

24/7

Threat monitoring

WHY IT MATTERS

Most breaches start with one click.

A phishing email, a reused password or an unpatched laptop is all it takes. We find and close the gaps before attackers do, train your team to spot threats and document your controls so audits and insurance renewals go smoothly.

\$10.22M

Average cost of a data breach in the U.S.

241 days

Average time to identify and contain a breach

WHAT'S INCLUDED

Six services. One security program.

Security risk assessment

A full audit of vulnerabilities, misconfigurations and compliance gaps, with a prioritized plain-English report.

Endpoint & network protection

EDR, firewall management, patching and 24/7 monitoring across every device and connection.

Email security & anti-phishing

Filtering, impersonation detection and link scanning that stop phishing and business email compromise.

HIPAA & compliance management

Documented controls for HIPAA, SOC 2, CMMC and FINRA, kept current year-round, not just at audit time.

Dark web monitoring

Alerts if your company's credentials or data surface in breach databases or dark web forums.

Security awareness training

Ongoing phishing simulations and short trainings, so your team stops being the easy way in.

PRICING

Core security is included in every managed IT plan (starting at \$149 per user / month). Have your own IT team? Add our security program on its own, scoped after a free assessment.

WHY SOLVED IT

One accountable local team.

- 1 **CISSP-led team.** Led by our CISO and a CISSP-certified security manager, with a Lead CMMC Certified Assessor on staff.
- 2 **Cyber insurance, done right.** We maintain the controls insurers require and document them, so a claim is backed by evidence.

Free vulnerability assessment

See where you're exposed before an attacker does. We scan and walk you through the results, free.

GETTING STARTED

Simple, clear, no pressure.

1

Security assessment

Devices, accounts, email and network, with a prioritized report.

2

Remediation plan

We close critical gaps first, then add monitoring and training.

3

Ongoing protection

24/7 monitoring and quarterly reviews as threats change.

PAIRS WELL WITH

Managed IT Services · Cloud Migration · IT Strategy & vCIO

Core security protection is included in every Solved IT managed IT plan; standalone security and compliance programs are scoped and quoted after a free assessment. Compliance support helps you prepare for audits; certification decisions rest with your auditor. Breach statistics: IBM, Cost of a Data Breach Report 2025.

See where you're exposed **before an attacker does.**

Book a free security assessment. No obligation, just a clear picture of your risk.
