WHY IT MATTERS

"Good enough" IT gets expensive fast.

One phishing email, failed backup or unpatched laptop can cost far more than the fix: downtime, lost data and client trust. Proactive, fully managed IT turns those surprises into a fixed monthly line item.

\$10.22M

Average cost of a data breach in the U.S.

241 days

Average time to identify and contain a breach

CHOOSE YOUR COVERAGE

Three plans. One accountable team.

Flat per-user pricing. Every plan: quarterly IT strategy reviews, a local team (no offshore call center), Microsoft 365 or Google Workspace.
