

● BUILD IT · OFFICE BUILD-OUTS & RELOCATIONS

Your new office, online the day you open.

One partner for every low-voltage layer of your build-out or relocation. We coordinate with your general contractor and architect and deliver cabling, network, Wi-Fi, A/V and conference rooms, access control, intercoms and cameras.

RCDD

Credentialed network design

BICSI

Certified installers

~3 weeks

65,000 sq ft Ethic build-out

5.0 ★

Rated on Google and Yelp

WHY IT MATTERS

One partner for every layer, no hand-offs.

Juggling a cabling vendor, a network vendor, an A/V vendor and a security vendor means delays and finger-pointing. We design, install and document everything to your floor plan, so your team is online and secure from day one.

★★★★★

"Solved IT has handled the network cabling and security needs for 50+ of our buildings... They are our GO-TO vendor."

Joshua R. · Phipps Houses

WHAT'S INCLUDED

Everything inside your walls, one team.

Network design & engineering

Pathways, rack layout, switching and Wi-Fi coverage planned by RCDD-credentialed designers.

Structured cabling

Cat6, Cat6A and fiber, terminated and certified to TIA/EIA standards.

Server rooms & closets

Organized, properly cooled MDF/IDF rooms with clean racks and power.

Wi-Fi & access points

Site-surveyed coverage with secure staff, guest and IoT networks.

A/V, cameras & access control

Conference rooms, video surveillance, door access and intercoms installed with the network.

Testing & documentation

Certified test reports, labeled diagrams, port schedules and photos.

PRICING Every build-out starts with a free site survey and a review of your floor plan, then a fixed-price, itemized quote before work begins.

WHY SOLVED IT

One accountable local team.

- 1 **Built right the first time.** Certified installers, quality materials and documented test results on every run.
- 2 **We built it, we can run it.** Add flat-rate managed IT and the team that installed your systems keeps them running.

Ethic · 65,000 sq ft, two floors

Empty floor to move-in ready in ~3 weeks: 10G network, 35+ Wi-Fi 7 APs and 10 Zoom Rooms.

GETTING STARTED

Simple, clear, no pressure.

- 1 **Site survey**
We walk the space and review your plans.
- 2 **Design & quote**
Layout, materials and a fixed-price quote.
- 3 **Install & certify**
Installed, tested, labeled and documented.

PAIRS WELL WITH

Managed IT Services · Video Surveillance · Access Control

Projects are quoted at a fixed price after a free site survey. Hardware, licensing and carrier services are itemized in your quote. Ongoing support is available through our flat-rate managed IT plans.

Planning a build-out or move? Let's map it out.

Book a free site survey. We'll review your space and plans and send a clear, fixed-price quote.
