

● SECURE IT · VIDEO SURVEILLANCE

Security cameras you can see from anywhere.

HD and 4K camera systems designed, installed and managed for your space. Every system starts with a free site survey, runs on its own secure network and lets you watch live or recorded footage from your phone.

4K

IP cameras, indoor & outdoor

11 buildings

Cameras for Tribeca Property Group

30–90 days

Typical footage retention

5.0 ★

Rated on Google and Yelp

WHY IT MATTERS

The answer shouldn't depend on who was there.

Verifying a delivery, investigating an incident or deterring theft should take a few taps on your phone. We place cameras to remove blind spots, isolate them from your business network and watch system health for you.

WHAT'S INCLUDED

Start to finish, one team.

Site survey & placement

Coverage zones, blind spots and lighting mapped before anything is ordered.

IP camera installation

HD and 4K indoor, outdoor, PTZ and license plate cameras, cabled cleanly.

NVR, storage & cloud

Recording sized to your cameras and retention, with optional cloud backup.

Remote & mobile viewing

Secure live and recorded viewing from any phone, with the right permissions.

Isolated camera network

Cameras on their own VLAN, so they can't become a security hole.

Monitoring & maintenance

Alerts for offline cameras, full storage and firmware issues.

PRICING

Cost depends on camera count, coverage area and storage. Every project starts with a free site survey and a written, itemized quote. Have in-house IT? We partner with internal IT teams, work to your standards and hand everything back documented.

WHY SOLVED IT

One accountable local team.

- **One partner for IT and security.** We manage your network too, so your cameras are secured and supported by one team.
- **Brands we install.** Dahua, UniFi Protect, Verkada, Hanwha, Axis and more.

Tribeca Property Group

Security cameras across an 11-building portfolio in Park Slope, Brooklyn.

GETTING STARTED

Simple, clear, no pressure.

1**Free site survey**

Coverage, lighting and mounting points.

2**Install & configure**

Cameras, storage and phone access.

3**Monitor & maintain**

System health and firmware handled.

PAIRS WELL WITH

Access Control & Intercoms · Vape Detection · Structured Cabling

Projects are quoted after a free site survey. Retention is configured to your policy; longer retention and encrypted cloud backup are available for regulated industries. Ongoing monitoring is optional.

See every corner, from any phone.

Book a free site survey. We'll map the coverage you need and send a written quote.
